Virtual reality

The sensory experience is manipulated by technology, booths that emit sounds, vibrations, smells, and 3D images.

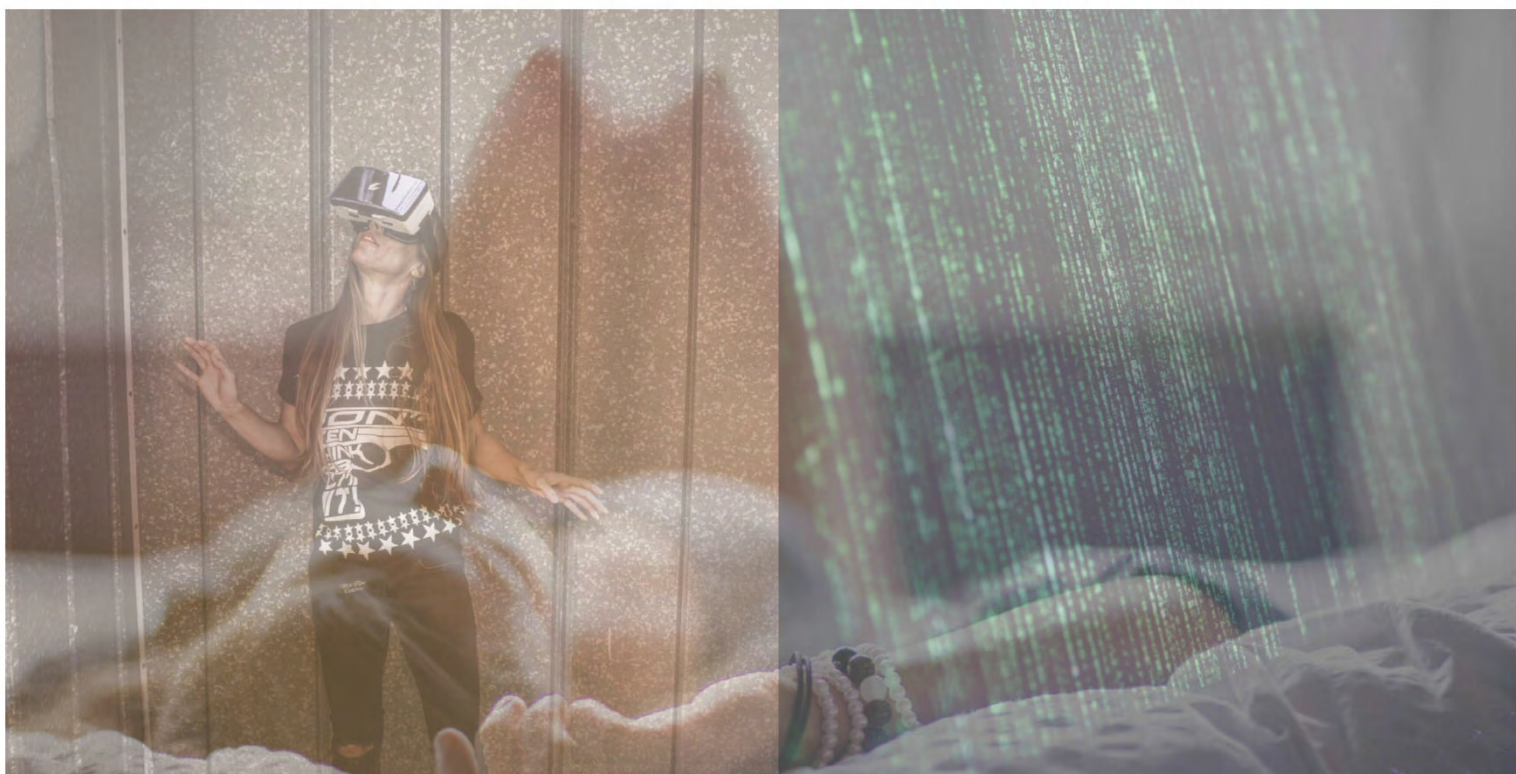

Sincerely, sexual excitement is the manipulation of our sense of reproduction, normally we have seen pornography, magazines, hot lines, video chats, webcam sex... But this is obsolete, for what comes with technology, nothing better to explain it, than with the following narration:

You can buy a kit, which consists of excellent quality speakers, virtual reality glasses and chair or mattress, which emits vibrations and movement. The video broadcast there is made in 360° or VR.

It is an act emitted similar to the one you see in the web cam sex service, however the speakers alter your auditory sense, the vibrations alter your touch, and the visual is stimulated, all the time; which leads your mind to explode in a virtual experience, with a high reality.

These kits are sold in the market around USD\$500, although they can reach USD\$5.000 for the quality of the articles, added to the fact that the big porn suppliers are already linked to VR products.

I hope this helps your daily pleasure.

Sexuality

HOW TO LAST LONGER V:

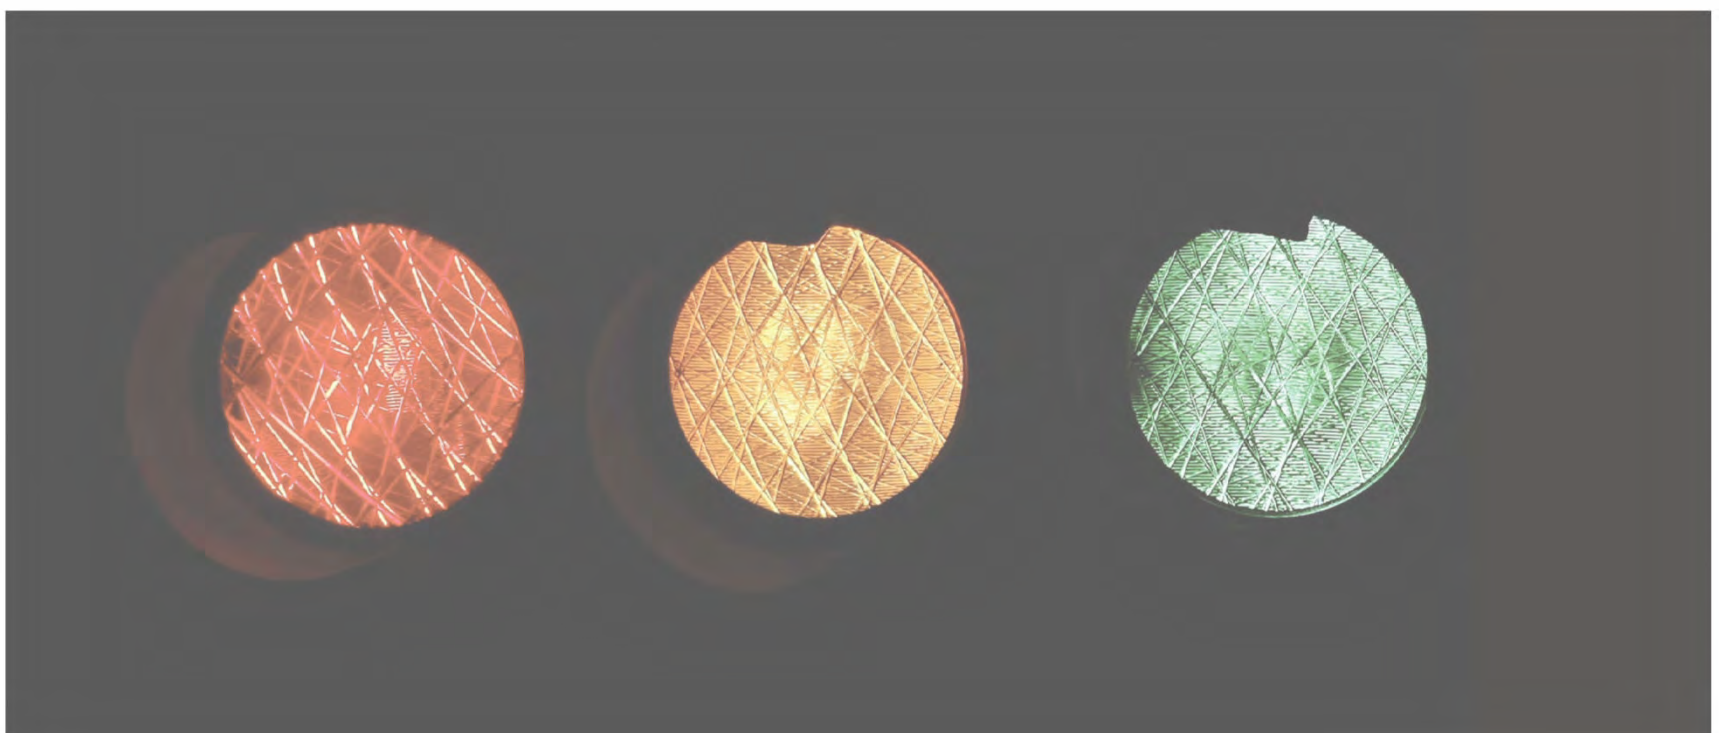

Go and stop

In this fifth installment, after the four previous practices, I think you can have a somewhat trained mind.

Now that your mind is trained, your pelvic muscle strengthened, and you become aware of lasting longer (now it should be easier), there simply remains a practice to move forward, and with this you become a sexual animal: Simply calculate your time, and before you feel the orgasm is close for a moment, slow down, and do something else (practice oral sex, games, or whatever you want), then continue with sex, and you can repeat it.

With the above you will be able to delay your orgasms, strengthen the erection, and have some film orgasms at the end.

We will be attentive to resolve doubts, write in the contact area of incitermagazine.com

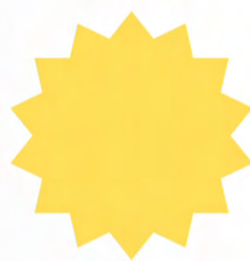

This model experienced amateur nudity, however she preferred not to show her face.

Red District, Amsterdam

Our readers are universal, so I want to share a narrative experience of one of our trips:

We were in the Red District, Amsterdam, where we found wonderful things for everyone who enjoys sexuality. Abundant sex shop, abundant motels, and above all varied sexual entertainment options. Arriving in the Red District, we began for three hours to look at showcases of women and men locked up, inciting to sex, the variety is very wide, and the quality that brings the naturalness with which they offer sexual services, opens the door to a world of relaxation, where we eliminate the idea that we are doing something wrong.

In short, we enter to begin at 11 in the morning, to a place of massages, where slender blondes, connoisseurs of the anatomy of the man offer delicious massages that end in orgasm.

From there, at lunchtime, we went to a nudist restaurant, where the beautiful redheads and blondes kiss you.

In the afternoon we went to a sexy girl dance bar, and enjoyed excellent and elastic dancers, where we were toasted, private dances, group dances, or simply have a beer while enjoying the multiple shows in the halls.

At night, we were in the center of the Red District, where there is a traditional place that looks like a doll's house. Women who look like models, and whose kindness transports you to seem to sustain a friendship of many years with them. I selected a beautiful and tall blonde, with whom I went to the thematic room, endowed with dresses and sex toys, where I could disguise to my liking.

There we repeated for three days these experiences that only Holland gives, and that naturally, without bad thoughts, we enjoy with full freedom.

My girlfriend's friends

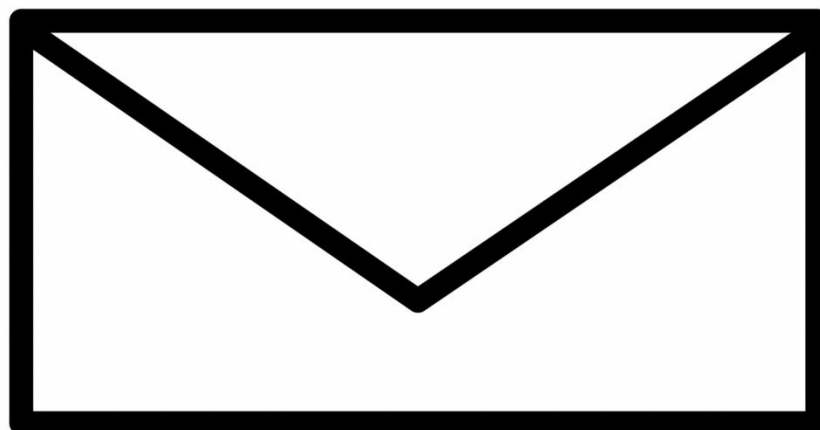

There is one characteristic that my girlfriend and her friends have in common: they love to drink a lot of wine.

One day we were at my house, they drink a lot of wine, something like 24 bottles, my girlfriend fell asleep, the meeting is over, when I walked to my room I found one of her friends lying on the floor, masturbating, when I told her to enter the bathroom, she reacted by kissing me, and touching my penis, wow she was very sexy, her breathing showed her excitement.

We had sex in the bathroom, then we went to sleep, I thought that this episode was forgotten, until I received a message to my phone on a Tuesday morning where he told me to go to talk about what happened, because he had bad feelings for cheating on his friend.

I went to her house, she was still wearing pajamas, and it looked delicious, we talked, and when we said goodbye, it was impossible not to kiss, we ended up having sex on the floor of the entrance to her house, she had something that made me feel like an animal.

We decided not to see each other again, and yet sometimes it is inevitable to meet, when we see each other we already know that the slightest neglect will end up having sex ... We no longer regret it.
